Testing

Happy Fourth of July

I hope that everyone had a great Fourth of July. Not only is it a great time for fireworks and cookouts, it is also a time to remember a little of our nation's history. You can google fascinating facts about the Fourth of July. Check out the website listed below to get some great information that also prepares Arizona high school students for their Civics Exam. It was prepared by the Smithsonian Institute and the US Citizenship and Immigration Service:

<http://americanhistory.si.edu/citizenship/> .

It is never too early to start preparing for the SAT exam. Khan Academy has a section that allows you to download an actual SAT exam. There are also videos that show you how to work through the questions. Khan academy is also a great site to review math and science material to get ready for the new school year!

www.khanacademy.com

Have a Great Summer

Summer is a great time to relax and recharge the batteries. But it is important to maintain your academic skills. Be sure to read some interesting books. The subject matter is not as important as the fact that you are reading. Also, be sure to review your math skills. Many online sites help you with fractions or decimals.

Check out

www.khanacademy.com .

Many of today's jobs do require math skills, so it is important that all students are ready for the real world.

Desmos Math Activities

Go to student.desmos.com to find the math activities.

Middle School

- **Laser Challenge**
Code: EPS93Y
- **Lines, Transversals**
Code: KYDQ5T

High School

- **Land the Plane**
