Ms. RACHEL'S Summer Newsletter

HELLO EVERYONE!

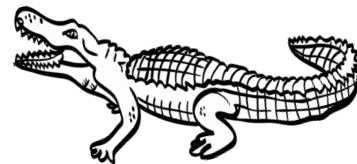

I hope everyone is having a wonderful summer! Please make sure you guys are continuing to read everyday! It would also be good to log in to i-ready and work on some lesson online if you have acces to a computer. I also attached some summer learning activites!

.....

Compare & Contrast: Alligators and Crocodiles

Directions: Read the passage below. With the information from the passage, fill out the Venn Diagram with similarities and differences.

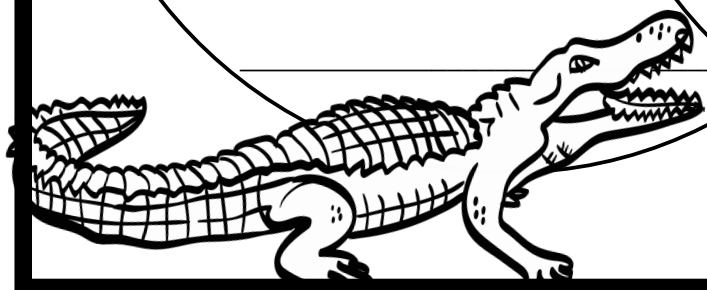

Alligators and crocodiles have lived on the earth for more than 200 million years. These reptiles look similar because they are close relatives. There are two different species of alligators while there are fourteen different species of crocodiles. The habitats of these two reptiles also differ. Alligators are typically found in freshwater marshes and lakes while crocodiles live in saltwater habitats. Although they look very similar in appearance, there are a few clear differences. Crocodiles are typically 14-17 feet long and weigh up to one ton. Additionally, their snout is a V shape and is more pointed than an alligator's snout. Alligators have a wider, U-shaped snout and can be 10-15 feet long. Both alligators and crocodiles swim well and can hold their breath for up to an hour. They use their tail to move through the water. On land, they can both run nearly 11 miles per hour.

3-Digit Addition & Subtraction (with regrouping)

Directions: Solve each addition or subtraction problem. Don't forget to regroup if you need to!

$$\begin{array}{r} 468 \\ + 443 \\ \hline \end{array}$$

$$\begin{array}{r} 525 \\ + 157 \\ \hline \end{array}$$

$$\begin{array}{r} 262 \\ + 347 \\ \hline \end{array}$$

$$\begin{array}{r} 689 \\ + 178 \\ \hline \end{array}$$

$$\begin{array}{r} 558 \\ + 228 \\ \hline \end{array}$$

$$\begin{array}{r} 732 \\ + 126 \\ \hline \end{array}$$

$$\begin{array}{r} 532 \\ - 322 \\ \hline \end{array}$$

$$\begin{array}{r} 621 \\ - 248 \\ \hline \end{array}$$

$$\begin{array}{r} 743 \\ - 429 \\ \hline \end{array}$$

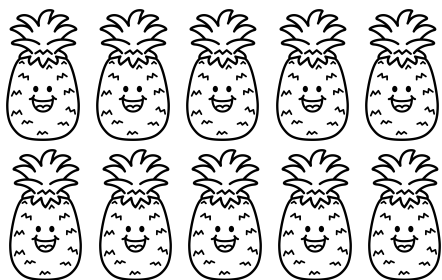

$$\begin{array}{r} 857 \\ - 284 \\ \hline \end{array}$$

$$\begin{array}{r} 282 \\ - 127 \\ \hline \end{array}$$

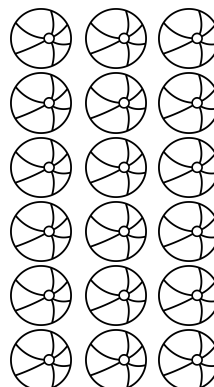

$$\begin{array}{r} 926 \\ - 679 \\ \hline \end{array}$$

Introduction to Multiplication

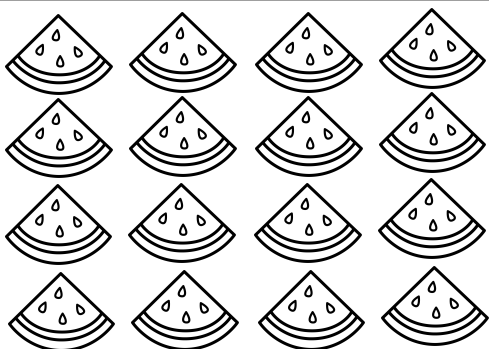

Directions: Look at each array. Count the number in each row and column to find the multiplication problem. Solve.

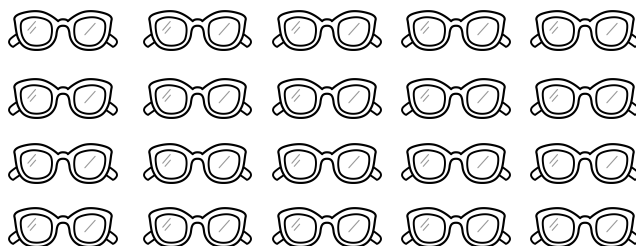

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

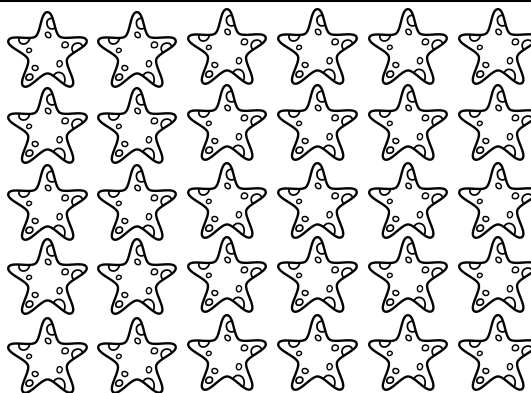

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
